### **Current Abortion Statistics**

The abortion was necessary to protect the health of the mother. The fetus was unable to survive outside of the womb. Prior to the RHA, a New York state law passed in 1970 provided for legal abortion if it occurred before the end of the 24th week of pregnancy or at any time if it were necessary to protect the life of the mother. The RHA expanded ...

### **Abortion regulations by state - Ballotpedia**

Abortion is safer for the mother than carrying a pregnancy to term. Medical and surgical abortions are both safe and effective when performed by trained practitioners. Most women seeking abortion are white (53%); 36% are black, 8% are of another race, and 3% are of unknown race. Abortion rates are highest among 20- to 24-year-old women.
