Blank space - Any time you analyse a piece of art or design, it is important to comment not only on what is included, but what is left out. The use of blank space in the opening splash of Figure 2.1.4a makes the readers eyes move quickly from left to right, setting up the joke that happens in the second panel on the right.

2.1 Analysing visual texts: 2.1.4 Understanding comics

Using your T-square and a pencil, use the measurements below to line your blank sheet of bristol: And if you like to draw newspaper comic strips, below we have a typical comic strip template. This is the generic three or four panel strip you see in your newspaper. The goal is a little different here. You just want the panel border.

For example, the wavy panel is often used as a way of saying that what is happening within the panel is a fantasy, dream or memory, and not part of the present narrative. Also the size of the panel can change the atmosphere of the comic. Having a very long panel with lots of space can make the pace feel slow.

As M.e. said, there are no rigid rules but some general rules of thumb. For a four panel comics you need to decide based on what you need to draw. It's a a cross four panel comic? Or a vertical one? How much details you want to put in there? How much text? For the basic square is recommended a proportion of 1:1,2 o 1:1,4 at max between width ...
