Capex decisions should be taken expeditiously though with necessary rigor. These seemingly contradictory goals can be bridged in two ways—delegating authority to the field for smaller decisions (followed up by post-hoc audits), creation of standard evaluation templates for routine requests/capital return thresholds, etc.

Components of Effective Capex Management

defined as Capex + Growth Capex (for life of project, i.e. 25 years from CoD of phase I). 2.2 Bill of Materials/ Capex Details Details of Capex (as admissible under M-SIPS) should be provided (with justification) under the following heads (su b-heads, as applicable to also be provided):

Detailed Project Report

Capital expenditure or capital expense (capex or CAPEX) is the money an organization or corporate entity spends to buy, maintain, or improve its fixed assets, such as buildings, vehicles, equipment, or land. It is considered a capital expenditure when the asset is newly purchased or when money is used towards extending the useful life of an existing asset, such as repairing the roof.
