Powerline | Comtrend

Through the G.hn Powerline User Interface you can perform the following actions. · Reboot the unit. · Check the Ethernet (LAN) interface connection speed, duplex, MAC, enable/disable. · Pull the statistics for the Powerline Adapter that is connected to the Gateway and see what the link rates of the other Powerline Adapters are to this device.

G.hn Powerline | Comtrend

Comtrend manufactures the hardware, but your Service Provider is the only one with access to your connection to their network and the Internet. For their network security, they use custom software, usernames, and passwords. This prevents a manufacturer like Comtrend from accessing the unit and renders us unable to assist you.
