A discourse marker is a particle (such as oh, like, and you know) that is used to direct or redirect the flow of conversation without adding any significant paraphrasable meaning to the discourse . Also known as DM, discourse particle, discourse connective, pragmatic marker, or pragmatic particle. In most cases, discourse markers are syntactically independent: that is, removing a marker from a sentence still leaves the sentence structure intact.

### Definition and Examples of Discourse Markers

Pragmatic makers (expressions such as so, well, and you know) have been shown to perform a number of important discourse and pragmatic functions in second language speech. In particular, as a subcategory of formulaic language in second language development, pragmatic markers facilitate the development of second
