As always, use tilted pencil, loose grip and your lines will be much stable and exact. Now you can join the head circle and the body fuselage together by gentle curves that will create the bird's neck. At this stage, the drawing - sketching, is still very rough so make as many pencil lines as necessary.

notoriously poor models — they just  
don't sit still long enough! My advice for  
beginners is to buy a good field guide to  
your local birds and use the photos for  
reference as you sketches. Once you  
have some confidence, you can begin to  
sketch them from life, or from  
photographs that you take.
