J.S. Bach by Albert Schweitzer, (English Translation by Ernest Newman) Volume 2 - Independent of his international renown as a humanitarian, Albert Schweitzer is well known as a great musicologist; a reputation that rests largely upon this book.

**J.S. Bach, Volume Two: Schweitzer, Albert: Amazon.com: Books**  
Volume Two is concerned with Bach's choral music — the chorales, cantatas, the Magnificat, the St. Matthew and St. John Passions, the motets, songs, oratorios, and masses. The illuminating analysis of these works, illustrated by hundreds of musical examples, is dominated by Schweitzer's highly original theories regarding Bach's pictorial representation of the text in the music, and the expressive motives Schweitzer has found and identified throughout Bach's compositions.

Description 2nd volume in a 2-volume set by the scholar Albert Schweitzer. Excellent study of Bach, his life and his music. 464 pgs.

**J. S. Bach, Volume 2: Book: Johann Sebastian Bach**  
Volume 1 called J. S.Bach a culmination of what could be done with music within the theories that Bach had to play on way back when it had not turned into the music we now expect. I bought a complete collection of Bach organ works when that was considered unusual by the kind of people I worked with.
