Jean-Louis Boulanger, in Certifiable Software Applications 2, 2017. 2.6.2 Software application specifications 2.6.2.1 Objective. The software specification stage has a dual objective, the description of the need and the software application's validation preparation. The description of the need gives rise to a specification file of the software application.

This post has been updated for 2020. The HR software market is growing fast. Vendors are turning out more solutions, and businesses are buying them. According to the 2019 KPMG Digital Trends Survey, “two-thirds of HR executives believe that HR has undergone or is undergoing a digital transformation.” But companies feel they’ll only succeed in driving digital transformation by making a ...
